2025

2022

**MOVING AWAY FROM
FOSSIL FUELS**

oil

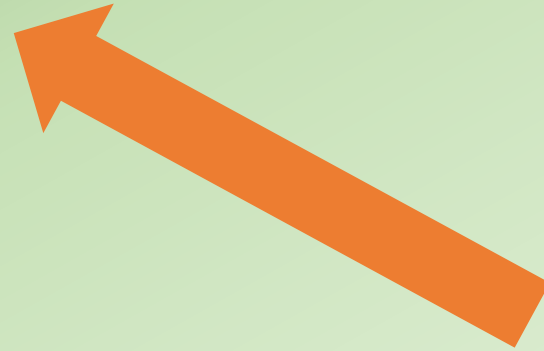

gas

coal

MAIN DRIVERS OF GLOBAL WARMING

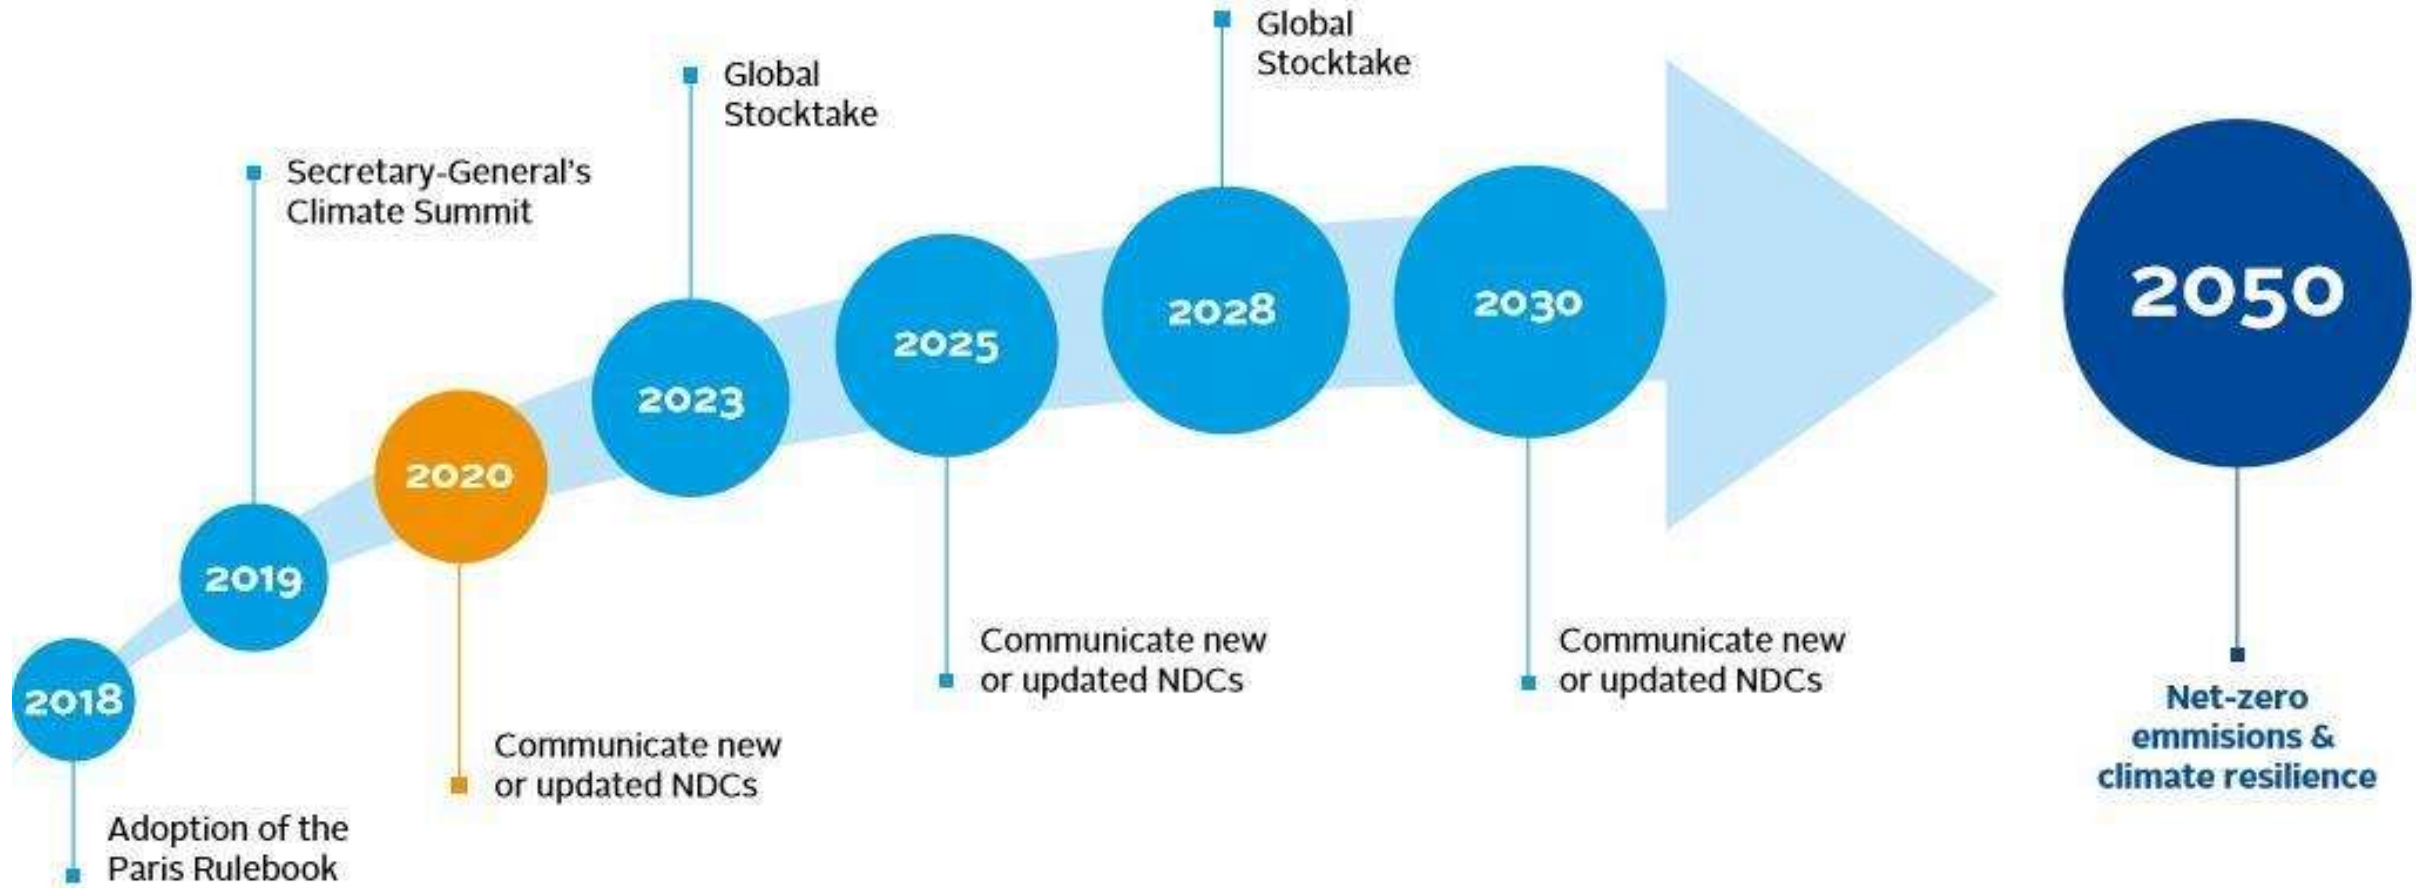

Delivering on climate finance

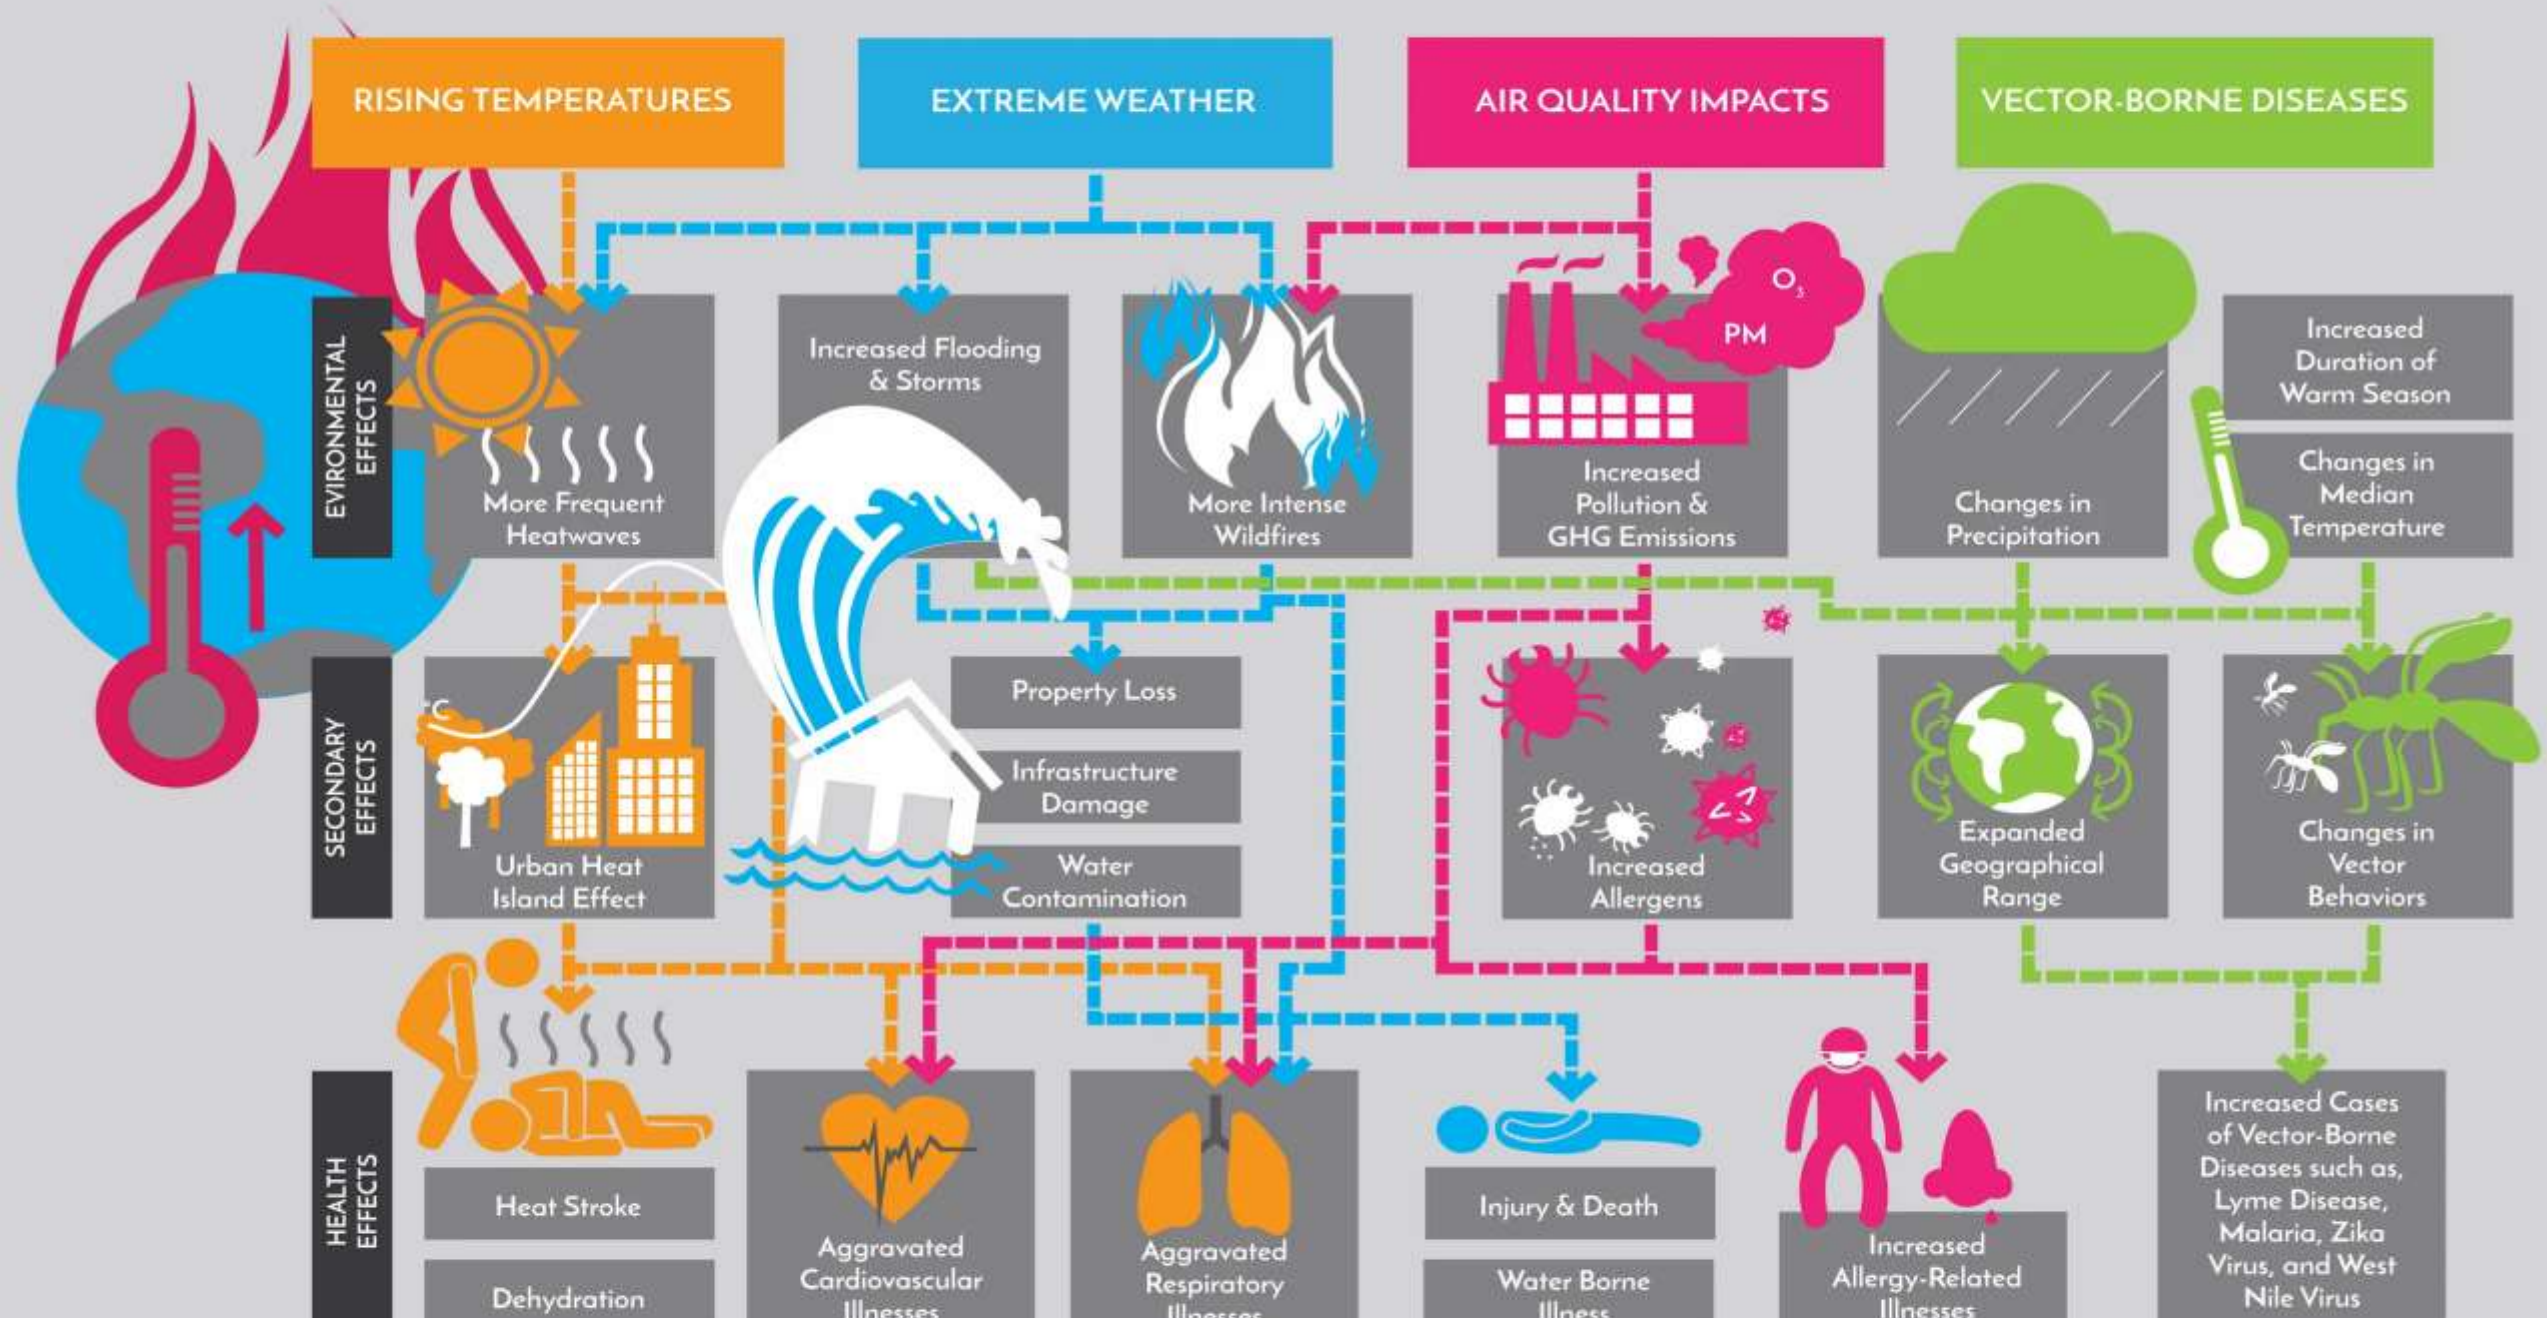

Stepping up support for adaptation

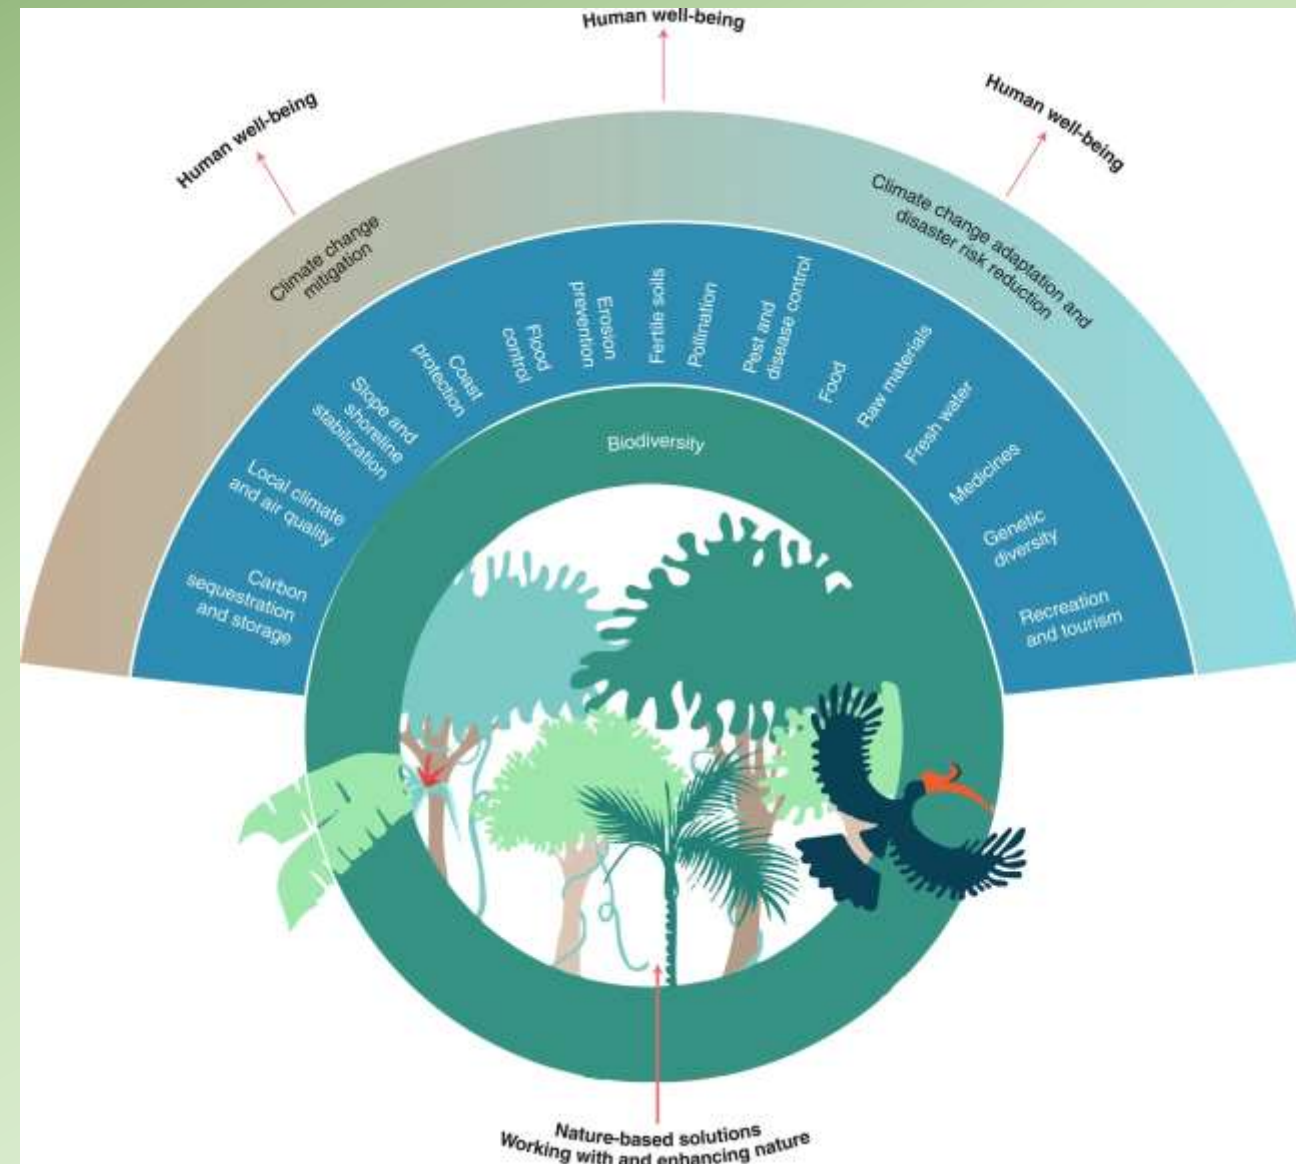

Completing the Paris rulebook

HOW CLIMATE CHANGE AFFECTS YOUR HEALTH

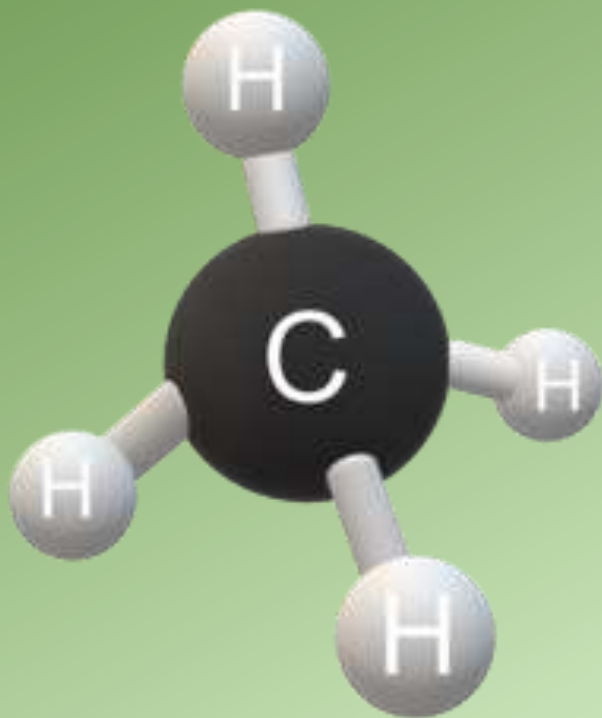

Focusing on loss & damage

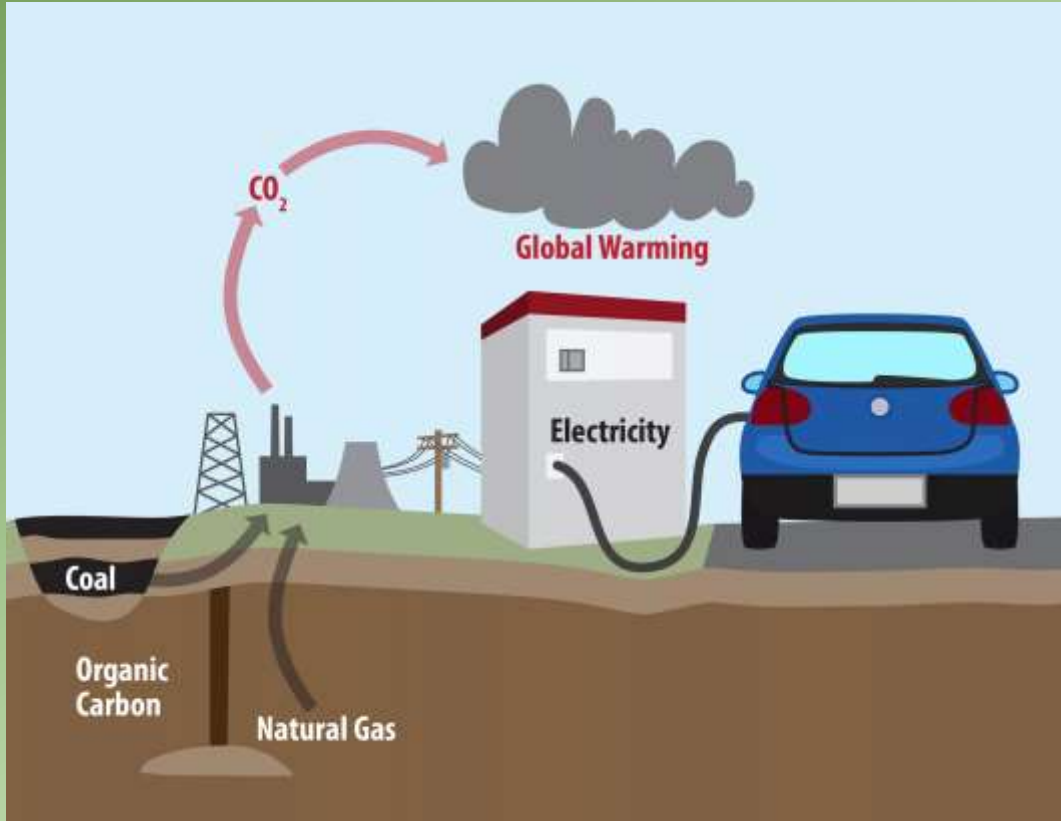

An aerial photograph of a vast, dense forest landscape. The foreground and middle ground are filled with a mix of green trees, including deciduous and coniferous species. In the background, a range of mountains is visible under a clear sky. The word "Forests" is overlaid in a large, black, serif font in the center of the image.

CLIMATE CRISIS

What are the goals at COP26?

The **UK is hosting the 26th Conference of the Parties**, with four goals to be discussed during the annual climate change summit in Glasgow.

Net zero and 1.5 degrees

Countries are called on to reach **net-zero carbon emissions by 2050** and to keep global temperatures **below 1.5C**

Protect ecosystems and habitats

States are encouraged to **protect and restore ecosystems** and build resilient infrastructures to withstand climate change

Mobilise finance

Developed nations are asked to mobilise **\$100bn in climate finance** per year for poorer nations to tackle climate change

Collaboration

Parties at COP26 will need to **collaborate** to finalise the **Paris Rulebook**, which sets out the rules of the Paris Agreement

Thank you for attention!
